

Fellows of the Society - Alphabetical

This is a list of all those who have been designated Fellows of the National Speleological Society, including those who are no longer NSS members. When the Fellow Award was established in 1967, the Board seeded the list with all members who had previously received a Certificate of Merit or become Honorary Members. Those on this list denoted CM or HM without a year became Fellows by that means. From 1967 through 1991, NSS members who received a Certificate of Merit automatically also became Fellows. Those with CM following a year became Fellows by that means.

This list includes Fellows through 2010.
