### Agreement

I, (*fill in FULL name*) \_\_\_\_\_, by submitting this application, show my support for the Pine Mountain Grotto, Inc. and its goals, efforts, and policies toward the conservation, preservation, and scientific, recreational, and scenic values of all caves. I believe in the programs for: the encouragement of self-discipline among cavers; education and research concerning the causes and prevention of cave damage; and special projects, including cooperation with other groups similarly dedicated to the conservation of natural areas. Also, I feel that caving parties should leave a cave as they find it. They should provide means for the removal of waste; limit marking to a few small and removable signs as are needed for surveys; and especially, exercise extreme care not to accidentally break or soil formations, disturb life forms, or unnecessarily increase the number of disfiguring paths through an area. I feel the collecting of minerals or biological material for display purposes, including previously broken or dead specimens, is never justified, as it encourages others to collect and destroys the interest of the cave.
