## BORC REPORT

### Feb 3, 2007

#### Activities:

I attended the Education Board working meeting in November at Walker County EMS Center, as well as the February Education Board Meeting.

I worked on Lecture, notes, and test questions for Media Relations Lecture. Also, I reviewed test questions for Medical/ First Aid.

There has been on-going review and “tweaking” of all Medical/First Aid Lectures.

I fielded several phone calls and e-mail inquiries.

#### Plans:

All Lectures need continued monitoring and review with concurrent review of test questions.

I still need to put together some “for real” IRT kits and some “mock” IRT kits for Mock rescues and 3 “for real” first aid kits (one for each level to take into the field). I anticipate this will be done for the Salem Weeklong.

I anticipate being able to attend the Salem Weeklong seminar.

Respectfully,

Stephen Mosberg
