

## **South Central Region Report**

The South Central Region has worked with the Girl Scouts Lone Star Council to take 30 of its Explorer girl scouts on a weekend horizontal caving expedition. We covered 4 different caves this year and the girls learned about the geology of the land, the animal habitat inside the caves, and about how important it is to conserve and protect these fragile environments.

Our Region also held a very successful Level I and II class in February. This was the first time we actually did it over a week long period instead of breaking up the time between two long weekends. The class was received well in this week long format.

Becky Jones has decided to step down as our Regional accountant due to personal reasons. I will be handling the duties from now on.

Respectfully Submitted,

Timothy Comer  
NSS, NCRC South Central Regional Coordinator
